OFFICIAL BULLETIN #1055

January 31, 2014

This Official Bulletin was published by the Louisiana Public Service Commission, Galvez Building, 12th Floor, 602 North Fifth Street, Baton Rouge, Louisiana, 70802 (Post Office Box 91154, Baton Rouge, Louisiana 70821-9154), established under authority of Article IV, Section 21 of the Louisiana State Constitution. This material was printed at a cost of \$0.72 per Bulletin.

DEADLINE FOR FILING MATERIALS TO APPEAR IN THE NEXT OFFICAL BULLETIN IS 04:30 PM ON TUESDAY, FEBRUARY 11, 2014 PRIOR TO MAILING ON FRIDAY, FEBRUARY 14, 2014. DOCUMENTS FILED AFTER THAT TIME WILL APPEAR IN THE NEXT REGULAR OFFICIAL BULLETIN.

OPEN SESSION WILL BE MONDAY, FEBRUARY 17, 2014 AT 11:00 AM, NATCHEZ ROOM, GALVEZ BUILDING, 602 NORTH FIFTH STREET, BATON ROUGE, LA 70802

Listed in this Bulletin are applications docketed for public hearing by this Commission. (Other docketed matters may be noticed individually under separate cover.) Any person wishing to intervene in any of the proceedings shall so notify the Commission in writing at its Baton Rouge Office in time for such notice to appear in the Commission's Office not later than Twenty-Five (25) days from date of this publication unless otherwise noted. The notice shall identify each proceeding and its docket number, set forth the interest of the intervenor or opponent and where possible the number and name of witnesses to be called and anticipated and any other known interested parties. Persons of record will subsequently be notified of time and place of hearing when fixed. (Copies of application or complaint will be furnished upon request.) In cases where applications for the transfer of Transportation certificates and permits are unopposed after expiration of the publication period and the Staff is satisfied that the transferor has operated the authority pursuant to requirements of LRS 45:166b and that the transferee is ready, fit and able to operated the authority, the authority shall be transferred after expedited hearing and the appropriate filings being made. Likewise, uncontested applications for Transportation certificates and permits will also be approved after expedited hearing and the staff is satisfied that the record after hearing does reveal that a prima facie case of public need and necessity/public interest has been shown.

RFP 14-01
LOUISIANA PUBLIC SERVICE COMMISSION
REQUEST FOR PROPOSALS

DOCKET NO. U-32977

Dixie Electric Membership Corporation ("DEMCO"), ex parte. In re: Request for Establishment of Regulatory Asset and Recovery of Hurricane Isaac Storm Restoration and Repair Expenses.

AND

DOCKET NO. U-33063

Dixie Electric Membership Corporation ("DEMCO"), ex parte. In re: 2013 Formula Rate Plan Annual Report and Application for Extension of Formula Rate Plan with Modifications.

The Louisiana Public Service Commission Staff ("Commission Staff"), in accordance with the requirements of the LPSC's General Order dated August 4, 2004, regarding the selection of contract employees ("Contract Order"), issues this Request for Proposals seeking an independent technical consultant to assist Commission Staff with two docketed DEMCO proceedings.

I. Overview

Docket No. U-33063 is the Commission's review of DEMCO's Annual Report pursuant to DEMCO's Rider FRP and related attachments, as set forth in Commission Order No. U-30893 and DEMCO's request for extension of its FRP with modifications. Notice of this proceeding was most recently published in the Commission's January 17, 2014 Official Bulletin. Docket No. U-32977 is DEMCO's request for restoration expenses related to Hurricane Isaac. Notice of this proceeding was also most recently published in the Commission's January 17, 2014 Official Bulletin. While these are two separately docketed proceedings, Commission Staff issues this single RFP due to the significant overlapping in data and issues for the two proceedings.

II. Scope of Representation

The independent technical consultant retained by the Commission shall assist the Commission's Legal, Audit, and Economics Divisions in analyzing DEMCO's Annual Report filing and determine if the filing complies with Rider FRP, and if any rate adjustments are necessary pursuant to the terms of the Rider FRP and attachments. As the existing FRP contains deadlines for the filing of Staff's report, etc. this matter should be taken up first. Second, the consultant shall review DEMCO's request for extension/modification of its FRP, including a review of the financials to determine whether extension of the FRP is in the public interest and under what terms. Third, the consultant shall review DEMCO's request for recovery of expenses related to Hurricane Isaac. This review shall be concurrent with the review of the FRP extension. In performing this duty, the consultant shall review the filings, accompanying work papers and DEMCO's financial data; draft and assist in the drafting of data requests; analyze data responses; participate in formal status conferences, pre-trial conferences, depositions, and hearings; draft and prepare audit memoranda and/or pre-field testimony in support of Staff's ultimate recommendations, together with exhibits supporting the memoranda and/or pre-filed testimony; and assist in the drafting of applicable motions, exceptions, briefing sheets and orders of the Commission. Additionally, the consultant shall be available to participate in informal conference calls, meetings and conferences with the Commission and its staff as well as attending any Business and Executive Sessions that the Staff deems necessary. The scope of the work shall continue through the conclusion of the dockets through Commission vote, regardless of whether said vote is the result of a stipulated agreement or contested hearing recommendation.

III. Period of Representation

The time period estimated to complete the total scope of work is estimated at approximately 12 months. DEMCO's Rider FRP provides the procedures and deadlines for the 2013 Annual Review, and this portion of the scope of the work is estimated at 2-6 months. This Period of Representation is merely an estimate and may vary greatly depending upon whether any matters are contested, and as such the Commission makes no representations as to its accuracy.

IV. Minimum Requirements

To be considered, all applicants must meet the following minimum requirements *in addition to those provided in this Commission's General Order dated August 4, 2004*. Consideration will be given to factors such as educational background and achievement, practical experience in the field of public utility practice and similar practice before other state public utility commissions; in addition to the applicant's knowledge of Louisiana ratemaking standards, regulatory law, and formula rate plans.

Applicant/consultant shall be qualified and prepared to prepare and render expert testimony, and be cross-examined, with respect to all of the issues addressed in this RFP and which are likely to arise in the proceeding. Applicant shall at a minimum be experienced in analyzing the operations, books and records of utility companies for the purpose of setting just and reasonable rates, including, but not limited to, calculation of rate base, rates of return, and capital structure. Experience with any ratemaking treatments and/or principles specifically particular to electric Co-ops is preferred. Applicant shall also be familiar with incentive based rate mechanisms such as FRPs, questions of proper capital structure, affiliated transactions, be familiar with the types of costing methodologies utilized by the LPSC, and shall be qualified and prepared to render expert testimony with respect to the following:

- (1) appropriate accounting standards and practices for electric public utilities and/or electric cooperatives, public utility accounting, and generally accepted auditing standards;
- (2) the appropriate ratemaking adjustments to be made to the utility's accounting records;
- (3) NARUC approved cost-of-service methodologies for electric cooperatives;
- (4) the determination and calculation of the appropriate rate base of a utility plant investment dedicated to providing service;
- (5) traditional cost-of-service and cost allocation methodologies supporting the revenue requirements among classes of customers;
- (6) the cost allocation methodologies for the allocation of investment and expenses between affiliates, including the relationship of the holding company to its subsidiary operating companies, the transfer of investment and costs between operating companies, and the provision of services between affiliates;
- (7) cost of capital, including capital structure, cost of debt, cost of equity and rates of return;
- (8) familiarity with just and reasonable costs and prudent investments associated with providing reliable and quality service as recommended by NARUC;
- (9) depreciation and taxation; and
- (10) a detailed understanding of the major functional areas of a regulated electric cooperative

All proposals shall include a plan of action, estimated timeline, and fees and costs associated with the Scope of Representation. Applicants may choose illustrate the individual costs for each docket as part of the bid proposal; however, there must be a single proposal for the complete Scope of Representation. However, in the event, an applicant is chosen, the Commission and its Staff shall have the right to determine how the tasks will be carried out. In addition, all proposals shall demonstrate that the Applicant has the qualifications and experience necessary to meet the requirements of this RFP. Applicants will only be considered if proposals meet all of the requirements of this RFP and the Commission's Contract Order.

V. Estimate of Costs

All applicants responding to this request for proposals shall quote their rates on an hourly basis and submit a budget that separates professional fees from costs. However, applicants shall only be allowed to charge for actual hours of work performed and costs incurred. Once selected, an applicant's rates and budget shall not be altered except by formal approval of the Commission.

VI. Conflict of Interest

Applicants shall prominently disclose current, as well as past employment, which could possibly result in a conflict of interest. In addition, Applicants shall prominently disclose all matters in which they currently represent clients before the Commission.

VII. Disclaimer

The LPSC reserves the right to reject any and all proposals, to amend and/ or supplement this request for proposals at any time, and to consider proposals or modifications thereof received at any time prior to LPSC vote at Open Session, if such action is found by the LPSC to be in the public interest. Pursuant to the General Order regarding the selection of contract employees, the LPSC has the right to accept offers other than the lowest offer with regard to price. In addition, there is also no assurance, express or implied, that an award will necessarily be made pursuant to this request for proposals.

VIII. Billing Guidelines

As required by the August 4, 2004 General Order, all bills will be rendered monthly and shall specifically identify and describe all work performed, the person performing such work, the time and charge for such work, and shall additionally show the total amount billed to date and the authorized original estimate. Bills will be rendered in strict accordance with the Commission's guidelines. Expenses shall also be separately disclosed with proof of such expenses attached.

Expenses, where applicable, shall be reimbursed at state authorized rates as specified in the Travel Policies and Procedures Memorandum issued by the State of Louisiana, Division of Administration in effect at the time such expenses are incurred ("Allowable Expenses"). Any expenses that exceed the Allowable Expenses shall be borne by the contract employee and shall not be reimbursed by either the Commission, or the correspondent utility, unless otherwise specified by the Commission.

IX. Submission of Proposals

Interested parties should submit the *original (hard copy), six (6) copies, and e-mail an electronic copy* of the proposal to:

Attention: Brittany Stewart
Louisiana Public Service Commission
Office of the General Counsel
602 North Fifth Street (Galvez Building) (70802)
P.O. Box 91154
Baton Rouge, Louisiana 70821-9154
Phone: (225) 342-4999
Fax: (225) 342-5610
Email: brittany.stewart2@la.gov

To be considered, an original, six copies, and the electronic copy of the proposal must be received on or before **12:00 noon on Wednesday, February 12, 2014**. Information concerning billing procedures and the Commission's RFP policy may be obtained from the address listed above, or by calling (225) 342-4999.

**LOUISIANA PUBLIC SERVICE COMMISSION
REQUEST FOR PROPOSALS**

**Entergy Services, Inc's Upcoming
Request for Proposals for Limited-Term Capacity Only Products ("2014 Limited-Term Capacity Only RFP")**

The Louisiana Public Service Commission ("Commission" or "LPSC"), in accordance with the requirements of the LPSC's General Order dated August 4, 2004, regarding the selection of contract employees ("Contract Order") issues this Request for Proposals seeking an independent technical consultant to assist Commission Staff in the review and analysis of Entergy Services, Inc's upcoming Request for Proposals for Limited-Term Capacity Only Products. Additionally, to assist the Commission Staff with any related LPSC resource certification applications that may be filed by Entergy Louisiana, LLC ("ELL") and/or Entergy Gulf States Louisiana, L.L.C. ("EGSL") (collectively "the Companies").

I. Overview

On December 2, 2013, Entergy Services, Inc. ("ESI") submitted correspondence to Commission Secretary Gonzalez advising of its intent to issue the Request for Proposals for Limited Term Capacity Only Products in early 2014. ESI submitted additional information regarding the RFP to Secretary Gonzalez on January 9, 2014. See attached. The Companies completed integration into the Midcontinent Independent System Operator, Inc. ("MISO") on December 19, 2013, and have participated in the planning resource auction to meet their MISO Resource Adequacy Requirements ("RAR") for the planning period ending May 31, 2014. Under current planning assumptions, MISO predicts that the Entergy System will need additional capacity, beginning in 2016, to meet MISO's RAR due to load growth and potential unit deactivations. Per ESI, it is conducting this RFP to seek products that will allow the Entergy System to meet its MISO RAR. ESI will solicit offers for the sale to one or more of the Entergy Operating Companies of zonal resource credits issued pursuant to the applicable MISO rules for each of the five MISO planning years from June 2016 to May 2021. The minimum amount of zonal resource credits that a bidder may propose to offer for any planning year is expected to be 50 MW while the maximum amount will be the system-wide "target" zonal resource credit quantity for each planning year. The target zonal resource credit quantities will be included in the ESI notice of the 2014 Limited-Term Capacity Only RFP to interested parties. Zonal resource credits may be offered for one, more than one, or all of the five planning years. ESI competitive affiliates will not be permitted to participate in the RFP.

The 2014 Limited-Term Capacity Only RFP is subject to the Commission's Market Based Mechanisms Order, Docket No. R-26172, Subdocket C, *In re : Possible suspension of, or amendments to, the Commission's General Order dated November 3, 2006 (Market Based Mechanisms Order) to make the process more efficient and to consider allow the use of on-line auctions for competitive procurement*, as amended October 29, 2008. The Market Based Mechanisms Order requires utilities to demonstrate and justify that applications for the construction and/or acquisition of additional regulated generation by investor-owned utilities is the least cost alternative and in the public interest. The Market Based Mechanisms Order requires the use of a formal competitive solicitation process ("RFP Process") for the acquisition of power supply resources by Louisiana utilities. It sets forth certain procedures and guidelines, including a 30 day advance notification to the Commission prior to submitting an informational filing and draft RFP, and at least a 30 day evaluation period between posting of the draft RFP and the issuance of an RFP.

The Commission's General Order dated September 30, 1983 ("1983 Order"), as amended by the Commission's Order R-30517, dated October 29, 2008, provides that no electric public utility shall enter into any contract for the purchase of capacity or electric power without first having applied to the Commission for a certification that the public convenience and necessity would be served by entering into the contract. Any firm power supply resources acquired by the Companies must be certified by the Commission in a docketed proceeding pursuant to its 1983 General Order. As a result, when a utility seeks to acquire or build capacity resources, it is required to make a formal informational filing with the Commission including its detailed planning information. The results and analysis from employing this RFP process are designed to serve as part of the justification required in paragraph (2) of the 1983 General Order.

II. Minimum Requirements

To be considered, all applicants must meet the following minimum requirements *in addition to those provided in* this Commission's General Order dated August 4, 2004. Consideration will be given to factors such as educational background and achievement, practical experience in the field of public utility regulation, and similar practice before other regulatory agencies or public utility commissions. Applicants shall be qualified and prepared to render expert testimony, and be cross-examined, with respect to all of the issues addressed in this request for proposals and which are likely to arise in the proceeding.

Applicant shall, at a minimum, be experienced in analyzing the operations, books and records of utility companies and be qualified and prepared to render expert testimony regarding and have knowledge of:

- 1) appropriate accounting standards and practices for electric utilities;
- 2) the Commission's Rules and Orders pertaining to the RFP process as it relates to the acquisition of power supply resources, including but not limited to the Commission's Market Based Mechanisms Order and its 1983 Order, as amended;
- 3) principles associated with purchase power contracts and the competitive process, including but not limited to analyzing whether or not a particular resource meets the utility's need for power and whether the considered resources are able to meet those needs;
- 4) whether or not a resource will provide reliable service at the lowest reasonable cost
- 5) resource planning methods to improve the efficiency of a utility's power supply operations and whether the utility is making use of any such methods;
- 6) public interest criteria for approval of or purchase power contracts;
- 7) Commission rules on affiliate transactions; cost recovery mechanisms for power supply resources, including the ELL and EGSL Formula Rate Plans, the Commission's Fuel Clause Recovery Order, Commission General Order U-21497 dated November 6, 1997; and
- 8) the Entergy System Agreement, particularly, Schedule M SS-4
- 9) MISO tariffs, rules and planning processes, generally, and specifically related to resource adequacy planning processes and use of zonal resource credits.

All proposals shall include a plan of action, estimated timeline, and fees and costs associated with completing the scope of representation, below. This will result in one proposal. However, in the event, an applicant is chosen, Commission and its Staff shall have the right to determine how the tasks will be carried out. In addition, all proposals shall demonstrate that the Applicant has the qualifications and experience necessary to meet the requirements of this request for proposals. Applicants will only be considered if proposals meet all of the requirements of this request for proposals and the Commission's Contract Order.

III. Scope of Representation

A. Review of 2014 Limited-Term Capacity Only RFP Process

Applicants will be assisting LPSC Staff in the review and analysis of the 2014 Limited-Term Capacity Only RFP Process, including but not limited to, review of the draft RFP and informational filing, preparing questions on the draft RFP and informational filing, conducting at least one technical conference with the Companies and market participants, prepare and respond to written comments on the RFP process, review and consult on any bid evaluations, project selection, contract terms, etc. and performing other coordination, technical analysis or consultation on the RFP as requested by Staff. As noted above, the evaluation period between the draft RFP and the issuance of the RFP will be 30

days, so this portion of the RFP review must be done on an expedited basis. The Applicant will also work with Staff to coordinate with the Independent Monitor as required under Commission rules. The Applicant will be required to assist Staff with the preparation of a report of the RFP process to be submitted to the Commission. The proposed estimated timeline for the RFP process is as follows, however, this is subject to change:

Early March 2014: Draft documents issued.

Early April 2014: Final documents issued. (approximately one month after draft documents)

Early May 2014: Bids due. (approximately one month after final documents issued)

June 2014: Contract(s) executed.

B. Certification

Should the Companies be allocated any resource(s) as a result of the 2014 Limited-Term Capacity Only RFP, Applicants will be assisting Commission Staff with the related certification proceedings pursuant to the Commission's 1983 General Order. Applicants will review the testimony filed by the Companies to support their request for certification, along with any testimony filed by Intervenor. The applicant will be expected to conduct discovery, prepare and defend direct testimony, participate in a certification hearing, and make a recommendation to the Commission. Applicants may be required to participate in informal meetings, conference calls, attend depositions, status conferences or any other meetings scheduled in the proceeding. Applicants will also be assisting Staff in preparation of any post-hearing briefs or filings, assisting in any settlement discussions and/or stipulation hearings and attendance and testifying at the Commission's Business and Executive Session. The scope of representation is through a Commission vote. Following the timeline for the RFP process, Staff estimates that certification applications would be filed 2-4 months after contract execution; however, this is only an estimate and Staff does not control when certification filings are made.

IV. Period of Representation

The time period ("Period of Representation") estimated to complete the Scope of representation is approximately 12-16 months. This is merely an estimate and the Commission makes no representations as to the accuracy of the Period of Representation.

V. Estimate of Costs

All proposals shall include fees and costs associated with both the 2014 Limited-Term Capacity Only RFP and LPSC certification process (A and B of the Scope of Representation, above). All applicants responding to this request for proposals shall quote their rates on an hourly basis and submit a budget that separates professional fees from costs. However, applicants shall only be allowed to charge for actual hours of work performed and costs incurred. Once selected, an applicant's rates and budget shall not be altered except by formal approval of the Commission.

VI. Conflict of Interest

Applicants shall prominently disclose current, as well as past employment, which could possibly result in a conflict of interest. In addition, Applicants shall prominently disclose all matters in which they currently represent clients before the Commission.

VII. Disclaimer

The LPSC reserves the right to reject any and all proposals, to amend and/ or supplement this request for proposals at any time, and to consider proposals or modifications thereof received at any time prior to LPSC vote at Open Session, if such action is found by the LPSC to be in the public interest. Pursuant to the General Order regarding the selection of contract employees, the LPSC has the right to accept other than the lowest offer with regard to price. In addition, there is also no assurance, express or implied, that an award will necessarily be made pursuant to this request for proposals.

VIII. Billing Guidelines

As required by the August 4, 2004 General Order, all bills will be rendered monthly and shall specifically identify and describe all work performed, the person performing such work, the time and charge for such work, and shall additionally show the total amount billed to date and the authorized original estimate. Bills will be rendered in strict accordance with the Commission's guidelines. Expenses shall also be separately disclosed with proof of such expenses attached.

Expenses, where applicable, shall be reimbursed at state authorized rates as specified in the Travel Policies and Procedures Memorandum issued by the State of Louisiana, Division of Administration in effect at the time such expenses are incurred ("Allowable Expenses"). Any expenses that exceed the Allowable Expenses shall be borne by the contract employee and shall not be reimbursed by either the Commission, or the correspondent utility, unless otherwise specified by the Commission.

VIII. Submission of Proposals

Interested parties should submit the *original (hard copy), six (6) copies, and e-mail an electronic copy* of the proposal to:

Attention: Brittany Stewart
Louisiana Public Service Commission
Office of the General Counsel
602 North Fifth Street (Galvez Building) (70802)
P.O. Box 91154
Baton Rouge, Louisiana 70821-9154
Phone: (225) 342-4999
Fax: (225) 342-5610
Email: brittany.stewart2@la.gov

To be considered, an original, six copies, and the electronic copy of the proposal must be received on or before **12:00 noon on Wednesday, February 12, 2014**. Information concerning billing procedures and the Commission's RFP policy may be obtained from the address listed above, or by calling (225) 342-4999.
